Description

<NOW ARRIVED IN NEW ZEALAND> REDUCED BY \$250K. MAKE AN OFFER NOW>

Since her launch in 2010 Novae has been a dream come true to her owners, who lovingly and expertly sailed her around the world, exploring remote and enchanted places at a leisurely pace. Novae is in survey for skippered charters (she was never a bare-boat charter). 2 to 4 lucky guests had the opportunity to join on the journey, spending a few days or weeks exploring their preferred locations. For this purpose Novae has the ideal layout, with the whole starboard side reserved for the owners, with a large master cabin flowing towards a dressing room and ensuite head and shower. The port side includes two double cabins, both with ensuite (head and shower). Bridge, salon, galley and deck are all on the same level and open onto the huge cockpit, sun lounge, outdoor dining area and stairs to the helm.

Having bought primarily as an ocean going vessel capable of remaining for long periods of time away from land and in all sorts of conditions, Novae was chosen and equipped accordingly. Her hulls are streamline enough to provide speed and a comfortable motion through the water (minimizing pitching or see-sawing movements), yet are designed to reduce wind funneling beneath. High bridge-deck also means less 'slapping', which is often a problem with catamarans. Equipment-wise this Salina 48 is provided everything you could wish for, including washing machine, 60L/H watermaker, scuba equipment, 9 X high output solar panels, generator, additional freezer and storage space (where single berth midships normally is situated). Please email us for a full inventory.

The Fontaine Pajot Salina 48 is a proper ship, designed with strength, safety and stability in mind as the flagship of the Fontaine Pajot range, which evolved from the celebrated Bahia 46 to produce a yacht which has been awarded all around the world as a masterpiece. Yet in spite of her obvious sea-keeping qualities the Salina 48 is also a yacht above the rest when it comes to the wow factor. Luxury on board Novae is felt as much as seen, with an attention to details equal to none. Beautiful joinery, silky blond timber throughout, top quality leather and stainless steel work, designer fittings, lights (LED throughout), etc. Which combine to create a sleek yet warm interior, unlike many other production catamarans, which have often been thought too 'plastic'.

In perfect condition and ready to keep going on her voyage around the world Novae is your chance to walk into your dream and sail away. After an idyllic three years her owners now have to 'get back to reality' and return to life on shore.
