Full video tour filmed at time of listing on August 25th 2022.

Available immediately and priced for quick sale as the owners need to return home to work and the new school year.

Read on for the full description!

For a bit of info about Nautilus Yacht Management, we are a boutique-style brokerage devoted to high quality cruising yachts and to the cruising community since our launch in Sydney in 2011.

With several offshore branches from French Polynesia to Fiji, New Zealand and Australia to assist cruisers along South Pacific route, we are here to help both sellers and buyers with the logistics involved from registration to insurance, delivery, import, survey, storage and crewing if required. Ex- cruisers ourselves we just strive to help others begin their journey on the ocean.

If you think Wild Tribe could be exactly what you have been looking for get in touch! Our team can organize a private video viewing with you as well as have all the time in the world to answer your questions, put you in touch with the owners if you wish, assist with organising your visit, purchase, delivery home if needed, insurance, berthing, crewing, etc.

A WORD FROM THE OWNERS:

"We bought this boat in 2020 in Turkey. My brother and I had planned and saved for about twenty years to take a sailing sabbatical of a year and a half or so to sail and explore as far and as much as we could our families. We are the third owners of the boat and from what we know it was initially lightly chartered in Turkey before being bought by a private owner for his personal use.

We've always liked Leopard catamarans for several reasons, including their reputation for durability as well as the front cockpit design which we thought might afford us another space for our families. Given Covid we had a difficult time outfitting the boat in 2020, however towards the end of the year and into 2021 travel restrictions eased and we were able to begin the process of outfitting the boat for long distance cruising. We utilized the excellent community of local and expatriate technicians and ——— to complete the main projects including replacing our foresail, installing a second refrigerator/freezer, installing almost 1500 KW in solar and installing a watermaker. We also picked up a gas powered Scuba compressor. In June, 2021 we began our journey with local cruising of the Turkish coast, and in early July set off to explore the Mediterranean. Wild Tribe has been a fantastic platform for our adventure. She exceeded our expectations with regards to speed, toughness and performance on the over 15000nm of our voyage. We've had expected and reasonable maintenance and repairs underway, and Wild Tribe has supported us fantastically without any significant issues derailing our progress. We will miss living and adventuring on her. We would love to continue our journey, but alas the pressures of work, school and budgets are forcing us back to our land bound lives. We hope Wild Tribe makes her next owners as happy as she has made us." Fiji, August 30th 2022
