Rig check April 2026

Extensive running rigging replacement and upgrades (2025)

Electric primary winch

Set up for short-handed sailing

Impressive inventory of spares, water toys, tools, and everything you need to move aboard today.

Nautilus Yacht Managementis proud to present this beautifully presented Lagoon 450F. With an extensive upgrade carried out just these past couple of years, this yacht truly stands out if you are looking for a catamaran that is ready for you to begin your journey right away. Home to a family from Canada who has owned this yacht since new, she has carried them safely from the Caribbean to NZ and Fiji for the past one and half year. As most cruisers carry out upgrades before they begin their journey and usually sell after many years, SV is a wonderful opportunity to purchase a Lagoon 450F that has had all its upgrades done very recently, and which were all tested as well. A true

gem and a rare find on the market.

TheLagoon 450is one of the most popular mid-size cruising catamarans in the world. It is highly favoured for family circumnavigation due to its unmatched space, stability, and safety, acting as a true "floating home" designed to handle extended Bluewater passages.

Why Families Love the Lagoon 450
• Exceptional Stability & Safety:Lagoon catamarans are designed to minimise the risk of seasickness and provide a safer, more secure environment for children to walk, play, and move around while underway.
• Abundant Living Space:It features 4 spacious cabins with their own private ensuites, and a roomy, light-filled saloon. The wide wrap-around windows allow the family to enjoy 360-degree views, making indoor days comfortable for cooking, eating, and schooling.
• Multiple Social Zones:The boat is built with separated relaxation areas, allowing the family to spread out. The enclosed aft cockpit is perfect for alfresco dining, while the forward trampoline and upper deck seating provide great areas for wildlife viewing or relaxing at anchor.
• Self-Sufficiency & Storage:Designed for long-distance cruising, it boasts high capacities for fuel, fresh water, and refrigeration, enabling families to live independently for extended periods.
• Reliable Handling:Over 1,000 hulls have been produced, making it a tried-and-tested Bluewater multihull. It provides excellent volume while remaining manageable for a cruising couple or family to sail.

Read on for the full description and for more information please contact our friendly team atNautilus Yacht Management.We are cruising yacht specialists and take a lot of pride in bringing you each of our carefully curated listings.

Our agency has assisted buyers from all around the world with the purchase of the boat of their dream, and almost two decades working on an international platform has provided us with the knowledge to help you with all the steps of your purchase and new ownership such as import, delivery, insurance, registration, etc.

Purchasing a yacht overseas does not have to be stressful. We are here to help.

A Word from the Owners

"Wonder has been the ultimate cruising boat for our family. We have loved the overall layout and the many benefits of the Lagoon 450F.

She sails beautifully - we’re often the faster boat even though we’re quite heavy, and we’ve got huge fuel tanks that really offer a lot of peace of mind on long passages. There’s great visibility from the fly bridge compared to most catamarans, making it much easier to go through areas with coral bommies, dock, raft up, or catch mooring balls.

There are a lot of seating areas (bow, flybridge, cockpit, salon) we can hang out at to either have quiet time or host friends. We’re often a boat that hosts as we’ve got more space than many (but don’t worry, cruisers always bring snacks and drinks!). We’ve also enjoyed having a lot of extended visits by family and friends - the spare room has been wonderful for both that as well as storage when it’s just the four of us.

This boat is very well ventilated. While the air conditioning works perfectly, we find we almost never want to use it as

Suite 302, Level 3, 304-318 Kingsway Caringbah NSW 2229

the hatches are designed to create great airflow throughout.

And the modifications we've made since we have been moved aboard have been outstanding. Between the batteries and the solar, we usually have plenty of power, rarely running the generator for most of the year, even though we are a 'power hungry boat' with lots of amenities. And those amenities can be either 220V or 110V. The bigger anchor and lots of chain always holds fast. The larger watermaker has never failed. The ample storage space and our various storage additions (tie downs for tool bins in the engine lockers, spice rack, hammocks, etc.) have meant that we can have most of the amenities from land that we are used to.

We put Wonder in charter for her first 7 years, but I think the difference has been that we, the original owners, 'helped' the charter company the entire time to stay on top of repairs and maintenance, keeping the boat in top shape and not accepting substandard fixes. There wasn't really anything wrong with Wonder when we moved aboard apart from a bit of wear and tear. And any lingering issues have long been worked out as the mechanical engineer onboard has maintained all parts of Wonder meticulously.

Our family of four has cruised on Wonder full time for 1.5 years. We sadly need to get back to land life after our adventures. One of the hardest parts will be to leave this home, which has kept us feeling safe and brought us to explore so many new places, from the Caribbean to Fiji. We sincerely hope she continues on to do the same for her next owners."

GENERAL INFORMATION:
- HIN: FR-CNBZF645J718
- Registration number: 847288
- Place of Registration: Canada
- Length: 13.9m, Beam: 7.9m , Draft: 1.3m,
- Displacement: Displacement with maximum load (22,015 kg), Light Displacement (16,900 kg)
- Material: GRP
- Keel: Twin minikeels
- Designer: Van Peteghem / Lauriout Prevost
- Builder: Lagoon Catamarans
- Year Build 2018, Year Launched 2017

RECENT UPGRADES:

Washing machine
•

Portable stick vacuum
•

Ice maker
•

Sliding glass door, and hatches make for excellent ventilation throughout the boat
•

Large windows provide a bright interior; curtains in excellent condition on all windows
•

Full set of matching cushions in all outdoor seating areas. Leather cushions in salon.
•

Full linens, pillows, blankets & towels.
•

Weatherproof bins that fit the spaces where they belong, including extra storage bins, with hold downs in the engine compartments
•

PRUSA XL 3D printer with dual head! This has been great for printing various boat parts for both ourselves and friends' boats, school projects and toys, and helping to problem solve solutions like a custom box for the sewing machine, an epoxy mold, or a broken curtain hanger. With a dual head you can print 2 different materials without all the waste of most multi-material printers. Includes a filament dryer, enclosed case, multiple print sheets, over 20 kg of material including specialty materials such as nylon, polycarbonate, ASA, water soluble and more.

GALLEY:
•

2 x 130L SS Frigonautica fridges. Compressor replaced on one July 2025. Spare compressor controller. 1 x 74L Magic Chef fridge, new Feb. 2025. 1 Bodegacooler 58L freezer w/ bluetooth, new Feb. 2025.
•

ENO 3 burner hob, ENO oven. Runs on both propane and butane. Includes 2 x 20lb steel propane tanks and 1 x 2.75kg steel butane tank.
•

Quick Nautic B3 60L hot water system. Connected to the hot coolant system of the main engines.
•

ACUVA ArrowMax 2 UV water sterilizer with smart faucet at sink, new Jan. 2025
•

Suite 302, Level 3, 304-318 Kingsway Caringbah NSW 2229

- Spare lines
- Spare batten
- NS Marine 5hp 2 stroke outboard including fuel tank and hose

STRONG POINTS:
- Late model Lagoon 450F. Hull #645 of ~850.
- Many factory extras such as increased engine hp, increased water tankage,
- Bulkheads were repaired. The repair was certified by Lagoon. See attached certificate. No issues with the mast compression post.
- Excellent platform for water based adventures including scuba, snorkelling, fishing, kiting, winging, and far reaching sailing
- Shallow draft gets you into places other boats can't, but lots of chain gives you options for anchoring
- Amazing visibility from the flybridge to better see those wildlife encounters such as dolphins off the bows (they seem to love this boat!)
