Electric primary winch

New standing rigging 2017. Last inspected in October 2022 in preparation for crossing from Fiji to NZ.

Running rigging in good condition and mostly replaced in 2020

Fully equipped for international offshore safety standards

Comes loaded with spares and everything on board to just move aboard today

Full survey report available on request

Available now.

This beautiful and lovingly maintained Leopard 46.2009 is now available for sale fully equipped and ready to keep cruising with no expenses necessary. Just hop aboard and sail away, or stay to explore beautiful New Zealand!

Her owners, a family from the US, purchased 'Kolohe for cruise through the South Pacific, which took them to some of the most beautiful locations in the world safely and in ultimate comfort.

A WORD FROM THE OWNERS:

"The Leopard 46 is a great sailing boat that will let you feel safe in all conditions, with good visibility to all corners of the boat. We have made Kolohe our home for the almost three years, and couldn't have been happier with Kolohe's performance and comfort over the 19,000 nautical miles that we have travelled. The 1.4m draft means that you can tuck Kolohe into almost any anchorage and the robust anchor tackle means that you can feel comfortable sleeping or leaving Kolohe for land adventures. Kolohe can be the centre of activity when you are cruising with other boats, given the ample cockpit and salon space, or a private refuge with plenty of space to move and think. The adventure awaits and Kolohe is a boat that can take you anywhere you want to go". (Whangarei. NZ. January 2023).

UPGRADES:

2017/2018 (previous owner)

- New water maker, ECHOTEC 40L/hr installed
- New 9kw generator installed

Suite 302, Level 3, 304-318 Kingsway Caringbah NSW 2229

performance, durability and comfort. The balance of interior and exterior usability, from the seamless transition between the extra-large cockpit and the spacious saloon, up galley, wide traffic areas, intelligent use of the design for maximum and readily accessible storage, abundance of natural light, air flow, etc., are complemented by well above expectations quality, from the drawing board all the way to the finishing touches.

Leopards consistently provides higher quality materials, more sophisticated building techniques, and more robust engineering. Their attention to details is another factor which will keep your beloved boat or investment from deteriorating, such as, for example, the way interior timber furnishing are finished in a way to prevent water intrusion and discolouration over time, a method that is seldom used by other manufacturers.

As cruising yachts, Leopards catamarans are truly hard to match in terms of speed, comfort and an ideal layout for families whose whole world will often be reduced to their ship for days of ocean passage, who will need to carry a vast amount of equipment and food without cluttering the boat, and who when they arrive at their destination will want to be able to enjoy a ship that is not just strong and seaworthy but also an ideal play platform.

The Look:

One look at a Leopard Catamaran is enough to see that under it's striking, almost feline lines, this yacht mean business.

The brainchild of highly respected South African boat builders Robertson and Caine, and designed by Gino Morelli and Pete Melvin (who drew the record-breaking maxi-catamaran PlayStation), it is easy to see that the boat is meant as a powerful, fast cruising yacht, perfectly suited to the more challenging environment of the ocean around South Africa and to safe and comfortable passage-making.

The Leopard 46 has high, almost plumb bows, which combined with the louvered forward window and rakish transom give a well-balanced, striking profile. The bows are narrow at the water-line and with a very fine entry to enhance performance. The elegant chines further define the lines and are pleasing to the eye, but are in fact designed to optimise the interior volume without slowing the boat down, and to provide a 'shelf' to reduce hobby-horsing as well as add reserve buoyancy in the seaway. The high bridge-deck is shaped to promote good adhesion to the water while encouraging performance and reducing 'slamming' in big seas as much as possible, something that boat owners with lower bridge decks sometimes complain about.

The cockpit:

The cockpit is big and comfortable, and offers various sitting, dining and relaxing areas. It is perfect for entertaining, with its huge table, pleasantly curving seats, lounges and easy access to the transom and aft deck. Every cruiser loves their boat, but the Leopard 46's cockpit is very often a subject of envy..! Perhaps it is the 25' beam, which contributes to the sense of lateral space, and the way the interior lounge / saloon is positioned somewhat further forward, slightly reducing interior space but providing the most used part of the boat, the cockpit, with a huge amount of usable and versatile space.

To add to the comfort is the adjustable hatch in the fibreglass Bimini, which opens forward to act as a wind scoop to provide a cooling breeze, a very nice feature in the tropics. Kolohe's cockpit is fitted with sun shades on all sides.

The helm seat is raised for good visibility and designed to be safe in all weathers. It is a winner for many cruisers who dislike being up many steps in a flybridge, far from everyone else on board and away from everything. It allows for all

Suite 302, Level 3, 304-318 Kingsway Caringbah NSW 2229

the sailing to be done in situ, without need to venture on deck unless ready to dock or anchor.

On deck:

The leopard 46's bows feature water tight compartments (ideal in case of collision), which are great for storing large water toys such as surf boards and other various equipment.

Aft of the trampoline is the windlass, water tankage, storage for docking lines/fenders, and generator compartments. The distinctive and functional Leopard glass steps allow you to easily mount the rooftop to access the lazy-jacks and sail bag.

Interior:

Access inside is through sliding glass doors that essentially extend the saloon into the cockpit at the same level. Part of the galley counter folds out, enhancing this effect. The galley is in the starboard, aft part of the saloon. It is large, are and comfortable to use even at sea, and will be the delight of the resident chef with its full size 4 burners stove, oven and grill, ample dedicated food storage, preparation areas and deep, double sink.

The dinette forward provides 360-degree views around the boat and seats eight in comfort. Three ports above the dinette in the forward part of the house open for good flow-through ventilation right through to the cockpit.

The interior's satin-finished cherry woodwork is attractive without being too warm. The laminate flooring used throughout presents in good condition and is easy to maintain.

Kolohe has the 4 cabins, 4 head layout, where the two aft cabins can be described as staterooms, with a Queen size island berth and ensuite head and shower which is of a generous size and enclosed by a proper door. The forward cabins have a semi-island double berth, access to the ensuite head and separate shower, and as for all the other cabins are fitted with ample designated storage lockers and hanging wardrobes. The port forward head was converted to pantry / utility room with floor to ceiling pantry and holding the washer while still be usable as a sink / vanity.

For more information please contact Anna at Nautilus Yacht Management. We would be delighted to chat with you more about the lovely Kolohe and to arrange for an inspection with you.

KOLOHE INVENTORY

SALOON FURTHER DETAILS:

- Cherry panelite finishes with solid trims
- Saloon table and settee to seat (8) people
- Overhead lighting LED
- Ample ventilation through forward facing all-weather hatches
